

PERSONAL INFORMATION SHIELD IT FROM PRYING EYES

10 WAYS TO KEEP YOUR PERSONAL INFORMATION SECURE

1

Don't let your cards or your card details out of sight when making a transaction.

2

Do not keep your passwords, login details and PINs written down.

3

Destroy, preferably shred, any documents or receipts that contain personal financial information when you dispose of them.

4

Do not disclose PINs, login details or passwords in response to unsolicited emails claiming to be from your bank or police.

5

When entering your PIN in a shop or a cash machine use your spare hand to shield the number from prying eyes or hidden cameras.

6

Only divulge your card details in a telephone transaction when you have instigated the call and are familiar with the company.

MasterCard.
SecureCode.

Verified by
VISA

7

Make sure your computer has up-to-date anti-virus software and a firewall installed.

8

If you have registered your card for online protection via Verified by Visa and Mastercard SecureCode ensure your password is kept safe and secure.

9

Use secure websites by ensuring that the security icon (locked padlock or unbroken key symbol) is showing in the bottom of your browser window.

10

Access internet banking or shopping sites by typing the address into your web browser. Never go to websites from a link in an email then enter personal details.
